**DID YOU
KNOW ?**

Made in the USA

The cylinder bag is made in America, from products manufactured in America hand crafted by Americans...

Gas Cylinder Handling Bags have:

- Quick release buckles
- The ability to safely load gas cylinders vertically by crane or helicopter with single lift-point hoist
- The ability to carry horizontally with HD reinforced web carry handles
- Four handles to allow better control for the prevention of damage to watertight edges!
- Suitability for transfer at sea

Their **rugged construction** consists of:

- Uniquely designed to handle any gas cylinder bottle weighing up to 350 lbs with diameters of 9" - 14"
- Manufactured with Cordura®, a lightweight, yet very strong, material; urethane-treated polypropylene that resists all forms of weather, chemicals, sea water corrosives, mold and mildew
- Extremely durable and resistant to punctures
- Bag base reinforced with extra heavy leather inserts
- Corrosion-resistant hardware
- Special marine-use thread with high resistance to wear
- Strap cross-points reinforced with thick leather bumper pads
- Heavy duty webbing with 700 lbs. tensile strength per 1"
- Easy maintenance and PMS supported.

Naval Safety Center Afloat Safety Programs

NAVSEA has authorized the use of a gas cylinder-handling bag in an effort to help reduce injuries associated with the movement of gas cylinders. With these handling bags, four men can transfer a heavy cylinder with ease. It is adjustable to cylinder sizes from 9 inches through twelve inches in diameter and can handle cylinders in the horizontal or vertical position.

Reference NAVSEA Dwg 803-5959260. Color is red with black straps: Part Number: 5959269-02R. PMS coverage for this bag, PMS MIP § 5736/001 R-3

Because INSURV, Deployment & Global Conflicts don't have schedules...

National Shipments: FedEx Express

Deployment? Inspection? INSURV? We have partnered with FedEx Express and obtained our HAZMAT & IATA certification to ship cylinders from coast-to-coast in less than 24 hours. Shipping & handling charges apply and are based on a case-by-case basis.

International Shipments: DHL Worldwide

Logistics issues abroad? We have Partnered with DHL Worldwide to ship cylinders around the globe. Logistics, shipping & handling charges apply and are based on a case-by-case basis.
